

An 8-Point "Citizens' Plan for Change"

A 'Peoples' Vote' vote giving us the choice to **'Remain and Transform'** EU does not mean unconditional support an institution facing huge legitimacy, efficiency, and fairness gaps. Nor does it imply approval of Prime Minister Theresa May's 'Deal' that vainly attempts to cloak the arrogance of power into a veneer of responsibility, but only succeeds to concentrate even more powers in the hands of a London élite that does not care about our the quality of life and is unable to resolve the acute challenges we face as a society in a rapidly globalizing 21st Century world. **'Remain and Transform'** the EU means making every effort to redefine the meaning of supranational solidarity across European borders and to work together with all our European and North American partners to find effective solutions to common problems that we in the UK can no longer resolve on our own.

Five Key Demands

1. Extend Art. 50 TEU by 21 months by March 29, 2019;
2. Participate in the 2019 European elections in May 2019;
3. Call for a Citizens' Constitutional Convention between June 2019 and May 2020;
4. Organise a People's Vote on a *New British Covenant* in June 202;
5. Translate into law the People's Vote result by December 2020.

The success of our "*In Britain We TRUST: Transform and Remain: United Stronger Tomorrow*" campaign depends on whether we can raise the funds necessary to *#Fightforward!* Our Establishment opponents - the radical UKIP and Tory supporters of the no-deal "hard Brexit" campaign, Conservative Prime Minister Theresa May's "EU Withdrawal Deal", and Labour Jeremy Corbyn's "soft Brexit" proposal - all dispose over virtually unlimited financial resources: from big businesses, major political parties, even your own taxes. By contributing your time, skills, enthusiasm, and resources to our campaign, you too will join countless others who truly wish to change for the better our communities, our countries, our continent, and our world. **Please contact us and get involved now!**

Remain & Transform !
"In Britain we TRUST"

Five Reforms We Need Now:

- A Strong United Kingdom
- A United Europe
- A New Trans-Atlantic Partnership
- Active Citizen Participation
- Effective & Responsible Governments

“There is a remedy which ... would in a few years make all Europe ... free and ... happy. It is to re-create the European family, or as much of it as we can, and to provide it with a structure under which it can dwell in peace, in safety and in freedom. We must build a kind of United States of Europe.”

Winston Churchill speaking at the University of Zurich in 1946

How will the **EU** benefit the **UK**?

Trustworthy banking system

Effective peacekeeping

National recognition

Resilient sustainability

Empowered eco-regions

Participative citizenship

Accountable government

Infomedia access & security

Revitalised 'glocal' cities

Safe & secure communities

Over the past two decades, when we look at the tragic events of 9/11 and 7/7, at the devastating wars unleashed all over the Middle East, at the global suffering caused by the still on-going 2008 Financial Crisis, at the unspeakable crimes of terrorist organisations such as ISIS, or at the rise of populist right- and left-wing movements in Europe – all these events have the same root cause: the utter unwillingness of our politicians to listen to our concerns and to take decisive actions to confront, together, the many challenges we face today. Desperate to entrench their power, privileges and positions against our will – against the democratic system of government they only pay lip service to, these Establishment politicians now want to enlist your support in their common attempt to undermine the one area of peace, prosperity, and participation to have emerged out of the ruins of the Second World War: the European Union – and in the process, to also fatally weaken the unity and democracy of our own country, of the United Kingdom. **We simply cannot allow this to happen. We cannot allow them to lead us down that path.**

In 1941, in the darkest hours of the Second World War, our greatest Prime Minister, Winston Churchill, did not just keep on fighting against dictatorship and barbarism, but together with US President Franklin Roosevelt drafted the text of the *Atlantic Charter* – that clarion call to the Free World which laid the foundations of the two of the most important international organisations that have stood for peace, freedom, justice, and security over the past seven decades: the UN and NATO. Today, the third institution envisioned by Churchill as indispensable to a prosperous, peaceful, and participative continent – the European Union – is under threat, both internally and externally. We cannot effectively address the external threats posed by aggressive dictatorships and murderous terrorists unless we remain strong internally, committed to the same values Churchill stood for, three-quarters of a century ago. **Join our Campaign to “Remain and Transform” the EU and play your part in creating for us and for our children a peaceful and prosperous Britain in a resilient and sustainable 21. Century world.**
